Bratislava, March 12, 2020

Dear Business Partner,

We are facing an extremely challenging time, with the spreading of the Coronavirus (Covid-19), already significantly affecting Europe and our region.

The situation is very dynamic and changing very quickly and we are therefore very closely monitoring all information and recommendations from local authorities in the different countries.

CRH has set in place a wide set of measures to mitigate risks, namely:

- Increasing the frequency and level of cleaning and disinfecting on all our facilities
- Providing truck drivers loading at our plants with medical gloves before operating any equipment
- Cancelling business trips abroad
- Reducing the travelling of employees inside the countries to the minimum necessary
- Monitoring the health conditions of our visitors, all our employees and enforcing “working from home” alternative whenever applicable.

We are also putting in place contingency plans to avoid any disruption on the supply of our products, by having back up plans in place for the operation organization, guaranteeing alternative sources of raw materials and fuels, as well as alternative supply chain/logistics solutions in case some of the borders are fully closed.

Currently, there are no limitations to our operations.

We will keep you informed if the situation changes and we are fully committed to ensure that impact of this situation to your business is minimal.

We would also highly recommend and ask you to give us any feedback in case of any relevant information, occurrence or disruption on your side.

Kind regards and Stay Safe!

Andre Peralta
Commercial Director
CRH North Danube
